## ALI Certified Asymmetric & Symmetric Lift

The newly introduced DP-10, 10,000lb. capacity 2-post lift is ALI Certified and incorporates Peaks' advanced Super Asymmetric Technology. With its various extendable functions, direct-drive hydraulic system, and clear-floor design, this lift proves to be a versatile asset to any shop looking to quickly and easily service a diverse range of vehicles.

### Features:

- 10,000-lb. lifting capacity
- ALI Certified
- Asymmetric or Symmetric
- Two height settings to accommodate various ceiling heights
- Single-point safety release
