A Portable Powerhouse

The MR06 6,000-lb. capacity mid-rise lift is an excellent choice for shops or home garages with low ceiling heights. Totally portable, the MR06 provides a perfect working height when working on tires, brakes or body work and comes standard with a 20-piece adapter kit.

Features:

- 6,000-lb. lifting capacity
- Mechanical self-locking design, manual safety release
- High-strength safety ladder
- Adjustable lock ladder
- Portable design. Easy to move with power unit stand
- Two hydraulic cylinders with flow restrictor
- High-speed from 0-43 inches in just 26 seconds
- Standard adapter kits included
