## The Perfect Scissor Lift

Perfect for home garages, full-service shops and quick-lube pits, the MRL-4000 is a mid-rise scissor lift with a 9,000lb. lifting capacity. Featuring hydraulic locks, four cylinders with flow restrictors and a safety alarm device.

## Features:

- 9,000lb.capacity (4,000kg)
- Mid-rise scissors lift, 24V Safety voltage control.
- Dual hydraulic synchronization & hydraulic locking system
- Lifting scissors consist of thickened steel
- Adjustable lift platform length, applicable to vehicles with different wheelbases
- Two-stage drive in ramps, suitable for lifting ultra-low chassis vehicles
- Flexible structure design, users can choose either flush mount or surface mount
