

## FRAME CRADLE PADS SKU 5215754

### Frame Cradle Pads for Light-Duty Trucks & SUVs

Safe lifting should be your number one priority, no matter what kind of work you're doing. Increase security and your peace of mind when raising heavy vehicles' with wet or slippery under-coated frames.

These ruggedly built frame cradle pads are designed to cradle and securely hold tubular steel chassis' typically found on light-duty trucks and SUV's. They're made of heavy-duty welded steel and feature thick anti-slip polyurethane rubber pads. A 35 mm drop-in pin makes them compatible with other 35 mm stackable adapters.
