Large Platform to Handle Virtually Any Motorcycle or ATV

With its wide, stable stance, stretched tabletop and super-tall lifting height, the RML-1500XL [motorcycle and ATV lift](#) greets you like the badass it is—rugged and tough with the muscle to prove it. We use rugged 12-gauge metal with superior welds and a durable powder-coat finish. Nope, wimpy is not on our list of features.

There are copycats everywhere, but just because it looks like a Ranger doesn't mean it works like a Ranger or lasts as long as a Ranger. Never trust a wannabe.

Features

- A combination of power, solid construction, and user-friendly features makes the Ranger RML-1500XL the best motorcycle lift money can buy
- With little effort, you can easily position, secure and raise motorcycles, bobbers, stretched choppers, trikes and other wheeled and recreational vehicles with ease
- Features 12-gauge welded-steel construction, a non-skid diamond-plate platform surface and full travel automatic safety locks that allow various working heights
- Side decks can be easily removed to provide a more compact work area for closer access to bikes when performing maintenance work or cleaning detail
- A humongous 1,500-lb. lifting capacity handles just about anything that rolls
- Safe and reliable means it's been lifecycle tested beyond industry standards
- Retractable, built-in, full-swivel casters provide stow-and-go capability even when loaded
- Precision ball bearings improve rollability
- A gentle slope, textured diamond-plate approach ramps, and a secondary cheater ramp means even ground huggers can be loaded effortlessly
- The RML-1500XL gets its power from a potent commercial-grade hydraulic power system that produces big lifting muscle right off the ground
- A dual-function power unit provides either air or hydraulic pump operation
- User-friendly controls increase productivity, reduce injuries, save money, and improve job satisfaction
