## FluidPRO® BFX-3 for Brake Flush System Servicing

FluidPRO equipment from MAHLE Service Solutions offers a range of choices in fluid exchange equipment. The FluidPRO® BFX-3 includes a variety of universal adapters designed to fit master cylinders of many vehicles, enhancing your shop's service offering. And the automatic push/pull process is completed in three easy steps in less than 10 minutes, allowing maximum productivity. The FluidPRO series goes beyond standards; for our customers, quality means failure-free assembly, satisfied end customers, and no product recalls — thus a strong brand. MAHLE Service Solutions is an industry leader when it comes to technical and training support. Whether our customers want on-site technical assistance in making their business more efficient or just have a question regarding our products, we're here for them!

### Features of the BFX-3:

- Compatible with both ABS & non-ABS brake systems for increased utility
- Includes pistol wand for convenience and accurate fill
- Automated push/pull process allows technicians to multi-task
- Easy hook-up with three-step process for simple servicing
- Complete service in less than 10 minutes for improved customer satisfaction
- Pressure gauge to assist in brake system diagnosis
- LCD display indicates when new fluid cylinder is empty and used fluid tank is full
- Universal adapters designed to fit many makes and models of vehicles, enhancing service offerings

Additional adapters are available; visit the MAHLE Service Solutions website at [www.servicesolutions.mahle.com](http://www.servicesolutions.mahle.com) for a full listing
